HEADWEAR STYLES

This is your guide to our headwear styles.
We group our headwear product line into style categories that
are based on the general construction, profile and shape of each model.

5 PANEL

The 5 panel is made with a flat front panel making it the perfect construction for models with a printed front panel. The seamless front panel also makes it one of the easiest cap styles to embellish.

Page 1/21

BEANIES

Also commonly referred to as knits, this knitted headwear style is designed to be worn as a fashion accessory and also comes in polar fleece. Clip labels or small patches are the best embellishment methods for this headwear style.

Page 28

6 PANEL

The Classic 6 panel baseball cap is as authentic as the game itself. Available in a wide range of profiles and fit, this traditional cap style is the go-to look for players, fans, and outdoor enthusiasts.

Page 9/23

HATS

Hat styles are designed for maximum protection from the elements and feature a 360 degree brim. Well suited for applique or small patch embellishments.

Page 34

7 PANEL

This unique and modern looking style offers a large seamless front panel with a curved top seam. The large seamless front makes this style ideal for all types of embellishments.

Page 27

POORBOY

As a part of the flat cap family, Poorboy caps have a similar look to Newsboy caps. However, these caps have a leaner body than the newsboy caps and they omit the button at the top.

Page 41

VISORS

Visors are designed to shield the sun from your eyes and keep your head cool. Small, simple embellishment designs work best on this style of headwear.

Page 42

ACCESSORIES

Our versatile multi-functional headwear effortlessly adapts to your lifestyle. From headbands to face masks, these accessories offer endless possibilities for wear and use.

Page 44

SWING TAGS

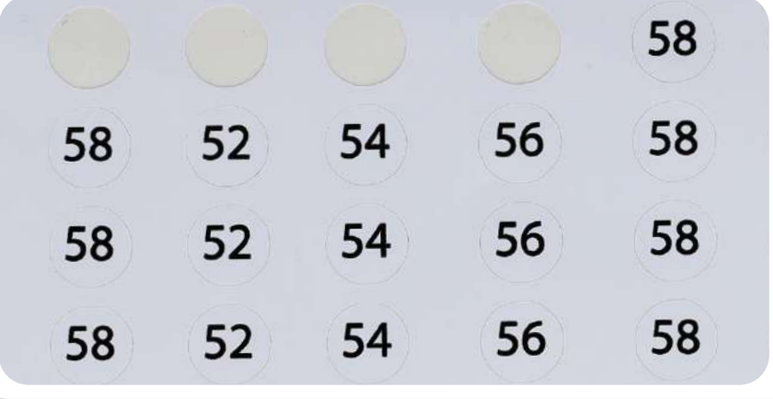

Elements attached to headwear through a hanging tag, adding a touch of personality and sophistication to the item. These embellishments come in various forms, such as metal charms, beads, fabric patches, or embroidered designs, each reflecting the brand's aesthetic or the theme. They serve as eye-catching accents that not only enhance the visual appeal of the product but also communicate its uniqueness and quality. They provide a subtle yet impactful way to elevate fashion pieces, making them stand out and leaving a lasting impression on the wearer.

STICKERS

Stickers in our headwear catalogue serve as vibrant accents, adding a splash of personality and flair to your favorite caps and hats. From whimsical illustrations to bold typography, each sticker offers a unique touch, transforming your headwear into a canvas for self-expression. Whether you're jazzing up a classic baseball cap or customizing a cozy beanie, these stickers invite you to make a statement and showcase your individual style.

CAP PROFILES & FUNCTIONS

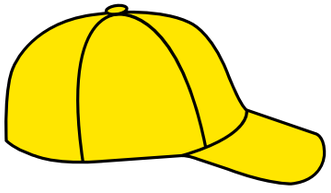

STRUCTURED

A structured cap typically refer to a type of headwear that has a well-defined and rigid form.

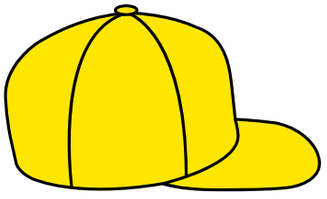

UNSTRUCTURED

An unstructured cap is a type of headwear that lacks the rigid internal support and defined shaping found in structured caps.

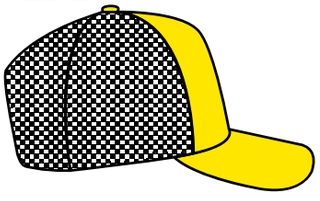

FLAT PEAK

A flat peak cap is a type of headwear known for its straight and flat bill. Crafted for chic urban appeal.

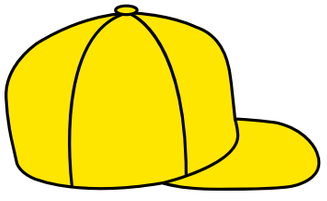

CURVED PEAK

A curved peak cap, often referred to as a baseball cap, a classic and widely popular style of headwear known for its rounded bill.

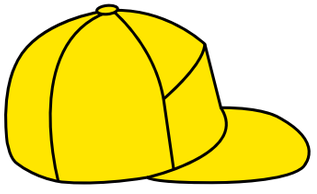

HIGH FIT

A High Fit cap has a crown that sits higher on the head compared to traditional or lower-profile caps.

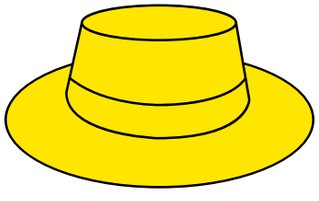

MID FIT

Mid-fit caps strike a balance between the casual look of low-profile caps and the prominent appearance of high-profile caps.

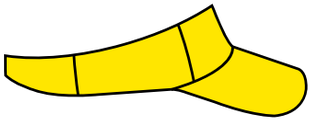

HAT

This type of headwear can offer a versatile and stylish option, providing sun protection while maintaining a casual appearance.

VISOR

The visor cap offers a sleek, minimalist profile with its open-top design and curved peak, providing shade and ventilation for outdoor activities while maintaining a sporty look.
